|-----------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|----------|
| Project Type                | Submersible Water Pump                                                                                                                                                                                                                                                                                                                                          | Project Code            | 7020.06  |
| Project Donor               | Respected Mr. Waseem Ahmad                                                                                                                                                                                                                                                                                                                                      |                         |          |
| Project Goal                | To provide sustainable access to clean drinking water, improving health and livelihoods in underserved communities                                                                                                                                                                                                                                              |                         |          |
| Project Objective           | To ensure access to safe and sustainable drinking water for underserved communities by installing reliable water system. This initiative aims to improve public health, reduce water-borne diseases, and enhance the quality of life, particularly in vulnerable regions, by fostering community engagement and promoting the efficient use of water resources. |                         |          |
| Location                    | Village: Basti Ambala , UC: 99, Tehsil & District: Multan, Punjab - Pakistan                                                                                                                                                                                                                                                                                    |                         |          |
| GPS Coordinates             | 30.0794676, 71.3700483                                                                                                                                                                                                                                                                                                                                          |                         |          |
| Location Background         | The project targets underserved areas in District <b>Multan</b> where communities face water scarcity and contamination issues. Providing clean water access will significantly enhance health, hygiene, and socio-economic well-being                                                                                                                          |                         |          |
| Current Status              | Completed                                                                                                                                                                                                                                                                                                                                                       |                         |          |
| Impact After The Completion | The project will reduce water-borne diseases, enhance community health, improve livelihoods, and promote socio-economic development by ensuring sustainable access to clean drinking water for underserved communities.                                                                                                                                         |                         |          |
| Expected Beneficiaries      | 650 Individuals                                                                                                                                                                                                                                                                                                                                                 |                         |          |
| Project Approval Date       | 19/06/26                                                                                                                                                                                                                                                                                                                                                        | Project Completion Date | 11/08/26 |

## Future Plans

Establish a community-based monitoring and maintenance system, train local teams for regular inspections, and implement a reporting mechanism for timely repairs and upkeep to ensure the long-term functionality of water systems
